ABOUT  
OFFECCT

## ABOUT OFFECCT

Offecct started with a vision to create the meeting places of the future, where beauty and innovation go hand in hand with functionality.

While our origin is Swedish, the philosophy has always been borderless and characterised by an international perspective on Scandinavian design. This is why we collaborate with the world's most creative architects and designers.

Together we affect spaces. We explore ideas that are innovative and push concepts of work — balancing the radical and the functional.

# ABOUT CIRCULUS

A sofa made to create your space.

It's a sculptural statement. It's modular freedom. It's a modular sofa that transcends conventional boundaries, redefining sustainable public seating through artistic expression. Circulus captivates with its bold sculptural form — a perfect synthesis of visual tension and structural clarity that transforms contemporary spaces from ordinary to extraordinary.

## THE DESIGNER

Mario Ferrarini,  
Born in Como, Italy (1978)

Graduated in Industrial Design at the Polytechnic of Milan he began practicing as a consultant for a number of renowned design studios until founding his eponymous studio in 2007, working alongside international companies on different projects ranging industrial products supporting leading companies such as:

Antoniolupi, Atlas Concorde, Bitossi, Castelli, Crassevig, Davis furniture, Desalto, de Sede, Ethimo, Franke, Jacuzzi, La Palma, Ligne Roset, Living Divani, Poltrona Frau, Potocco, Viccarbe, Wendelbo and others.

“

RADICAL AND HONEST,  
IMMEDIATELY RECOGNIZABLE  
WITH ITS **STRONG AND UNIQUE**  
**IDENTITY,** YET HONEST WITH  
CLEARLY VISIBLE ELEMENTS  
IN LAYERS.

—Mario Ferrarini

The studio works alongside companies to create unusual products that are timeless and transcend passing trends, targeted finding long-lasting solutions for clients with production aimed towards a large consumer market with recognizable solutions and acclaimed distinguishing features.

Nothing hidden, easy to understand.  
Clearly different.

OFFECCT

# THE CONCEPT

It's a modular seating system that re-defines sustainable public furniture, making adaptive comfort available to every space. Circulus brings innovative design within reach through its honest construction that challenges conventional seating limitations.

It's furniture that adapts effortlessly to any setting. Welcoming and refined in offices, hotel lobbies, coworking spaces, airport lounges, or university campuses.

Merging very characteristic design with practical functionality. Seating crafted to energize public environments for decades.

OFFECCT

# CIRCULAR VISION

## The circular vision of Circulus

Named from the Latin word for „circle“, „Circulus“, embodies circularity in every aspect — from its distinctive perforated design that reduces weight while showcasing recycled materials, to its configuration possibilities that transform any space. This sculptural seating allows for some configurations easy upholstery replacement, extending its lifespan while minimizing maintenance costs. Circulus completes its name journey with simple end-of-life dismantling for optimal recycling — a beautiful, practical commitment to circular design principles that brings artistic expression to everyday environments.

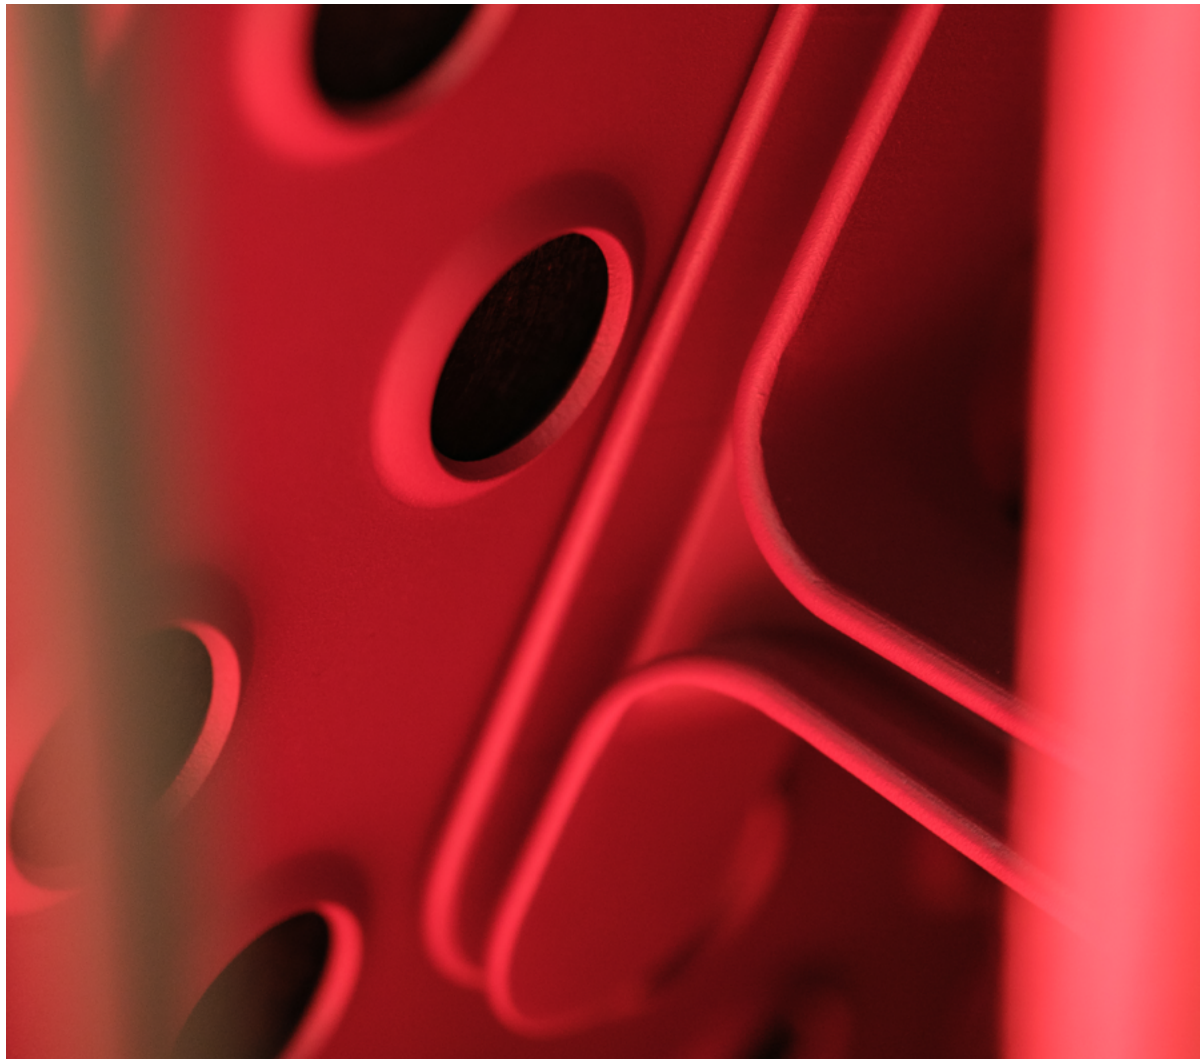

## THREE GOOD REASONS

**1**

The sofa is highly versatile, with high and low backrest options, numerous configuration possibilities, and a wide range of frame colours, making it suitable for both office environments and large public spaces.

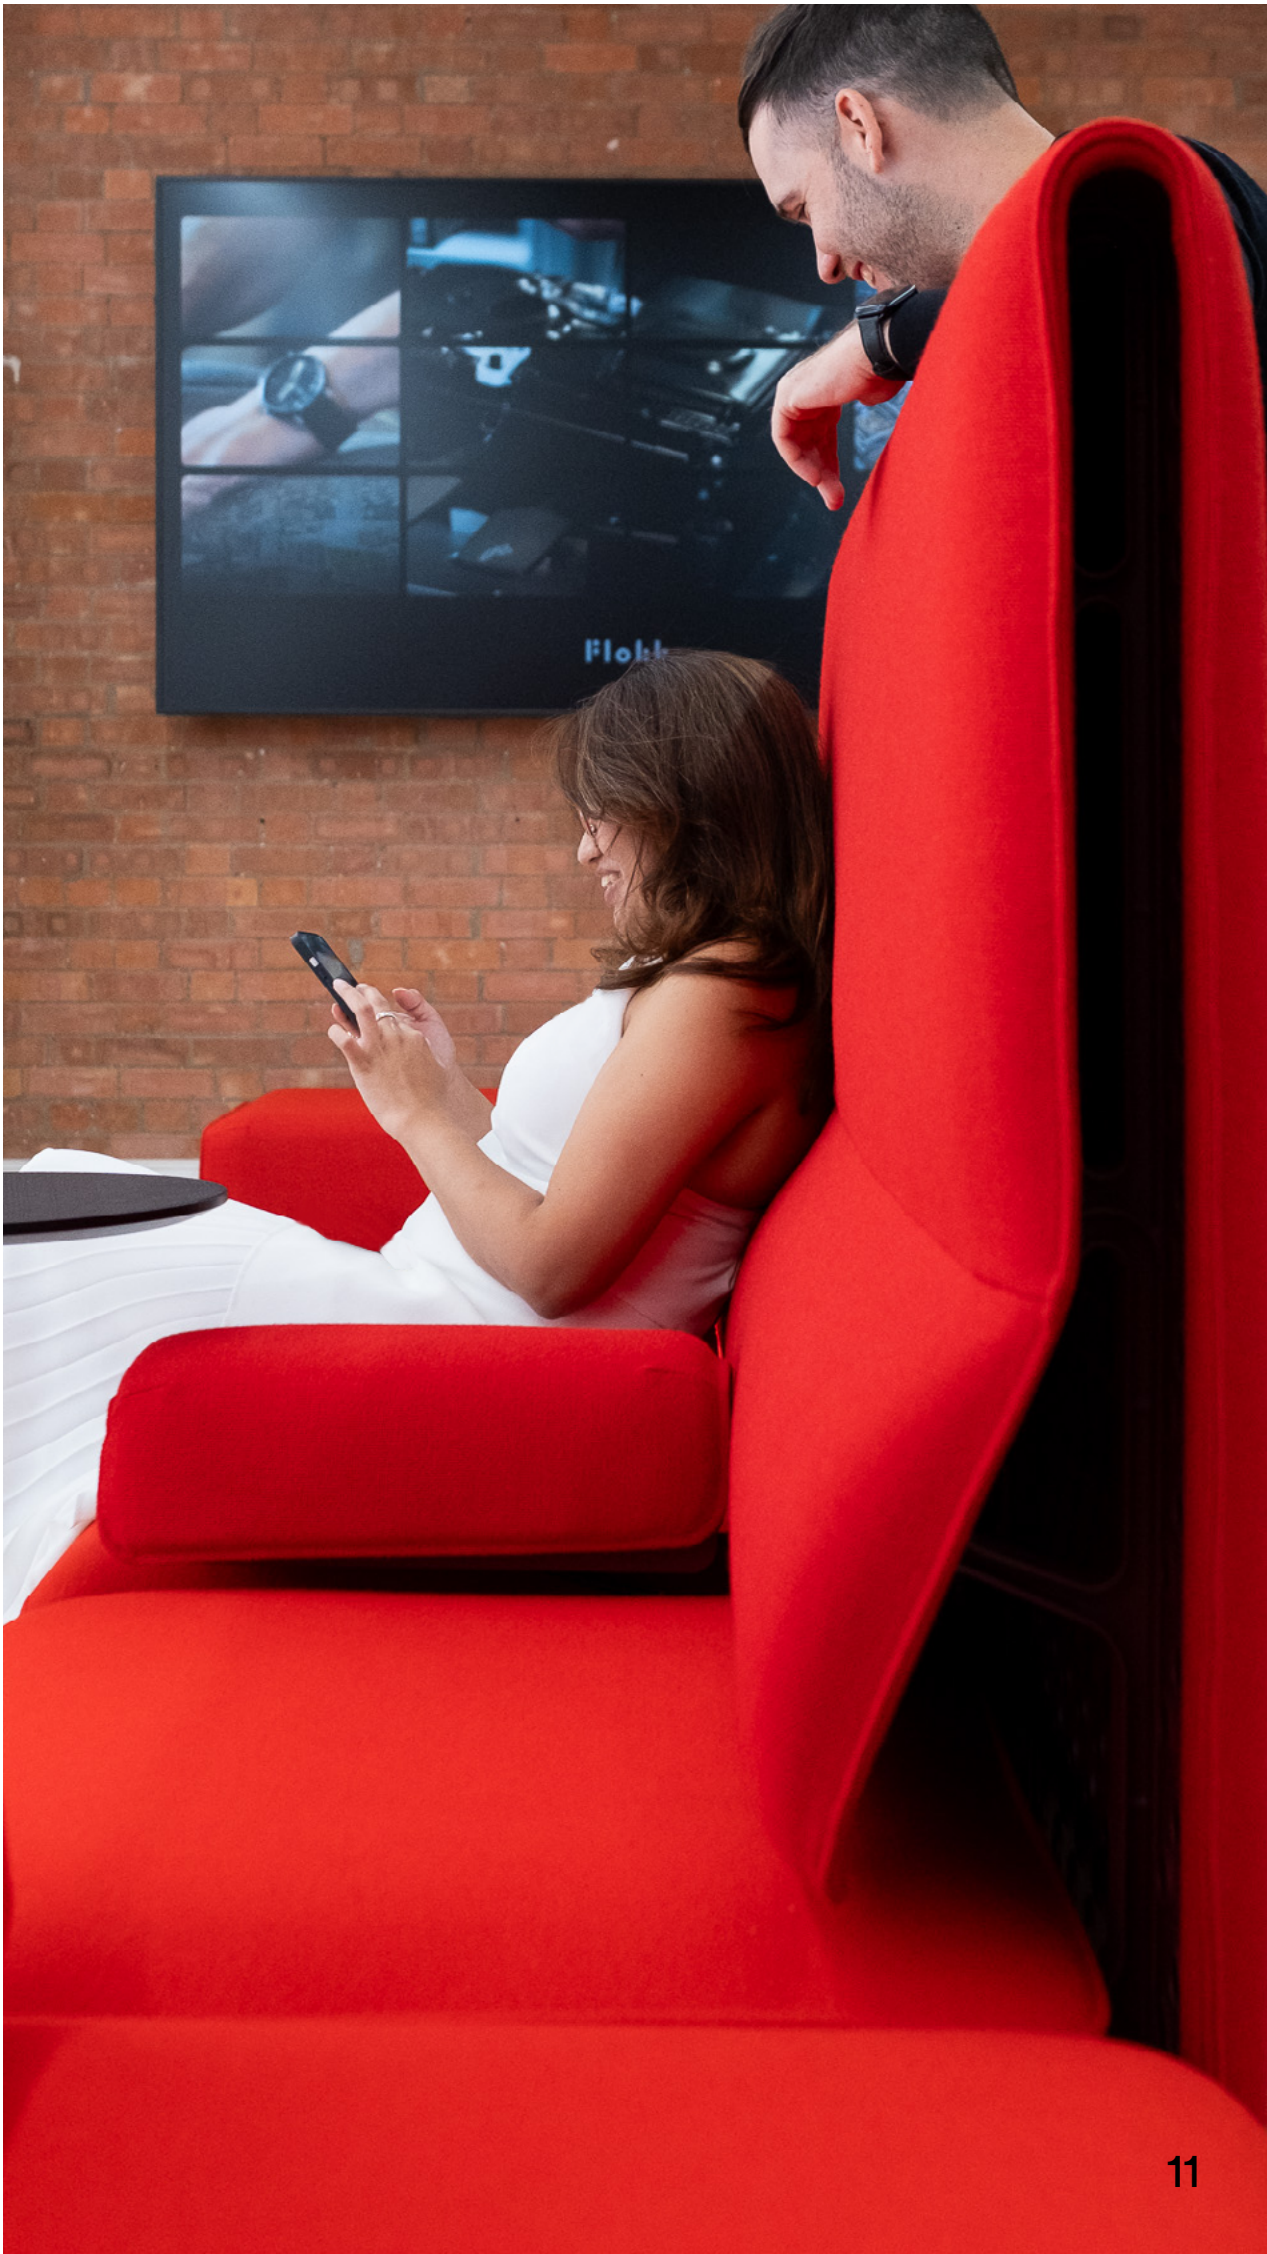

**2**

It holds environmental certifications and is designed with circularity in mind. The frame is made of durable steel and recycled aluminium.

**3**

The unique upholstery design makes it possible to replace the upholstery of some configurations. No glue, no staples, simply order a new upholstery and have it refurbished. Offering both adaptability and longevity.

# RED DOT AWARD

## Red Dot Award: best of the best

The highest distinction in product design — previously awarded to icons like the iPhone, MacBook Pro, and Porsche Taycan. Out of thousands of global entries, only a few receive the „best of the best“ title. With this award, Circulus joins an elite group of pioneering designs, setting a new standard for sustainable furniture.

## Red Dot Award: sustainable design

Circulus was also honoured with the Red Dot Award: sustainable design — recognising its commitment to responsible design:

- **Durability:** crafted with premium materials for long-lasting use.
- **Adaptability:** designed to evolve with users’ needs over time.
- **Material efficiency:** made using renewable and recyclable resources.

# ADD-ONS & ACCESSORIES

Offecct Circulus – table collection

## Available Shapes

- Rounded: Ø 400 mm
- Rectangular: 450 × 300 mm

## Material & Finish

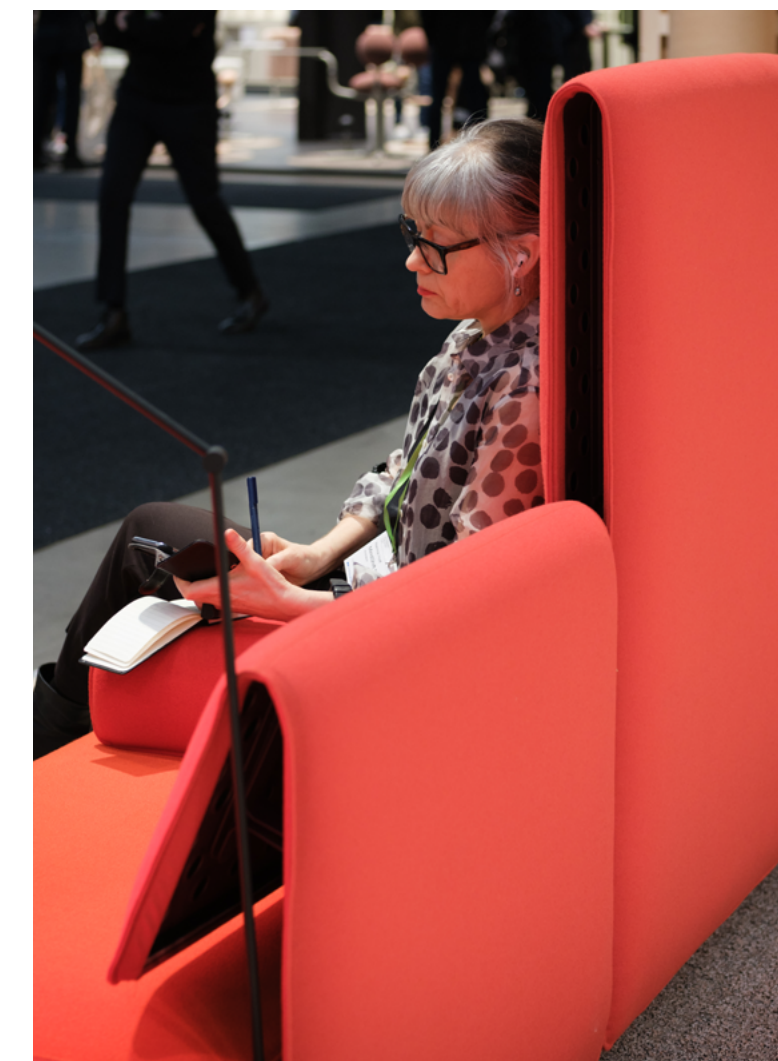

- Tabletop: Black ash veneer with a plywood core
- Frame: Matches the colour of the base

## Installation Guidelines

- Tables can only be positioned between seat modules
- Not compatible with backrest connection

Play around with extras to enhance comfort and functionality.

**High Backrest:**

Backrest with height of 129 cm  
(available at additional cost)

**Armrest:**

Can be added between seat modules that have backrests

**Mediaport (various placement options):**

- Front of seat panel (rear placement not permitted)
- Sides of seat (not possible when modules are connected)
- Armrest
- Ottomans (cannot place two ports on opposite sides)

Limit: Maximum of two mediaports per module

# SYSTEM FOR EFFICIENCY

## Connection system

Precision-engineered interfaces enable seamless assembly between seat, backrest, and underframe components, allowing targeted disassembly without complete frame replacement.

This thoughtful design minimizes material waste while maximizing serviceable life — supporting both operational efficiency and sustainable facility management.

## CIRCULARITY AT CORE

As the name suggests, Circulus is designed with circularity at its core. Made from high-quality, durable materials and built with a robust design, it's made to last a lifetime and is corresponding to Flokk's principles for sustainable design.

- Die casted aluminium (for J-bars and seat brackets): >98% recycled content
- Aluminium sheets (seats & backrests): 20% recycled content
- Steel (for legs and frames): 20% recycled content

The circular pattern not only defines the design identity but also reduces material usage and weight.

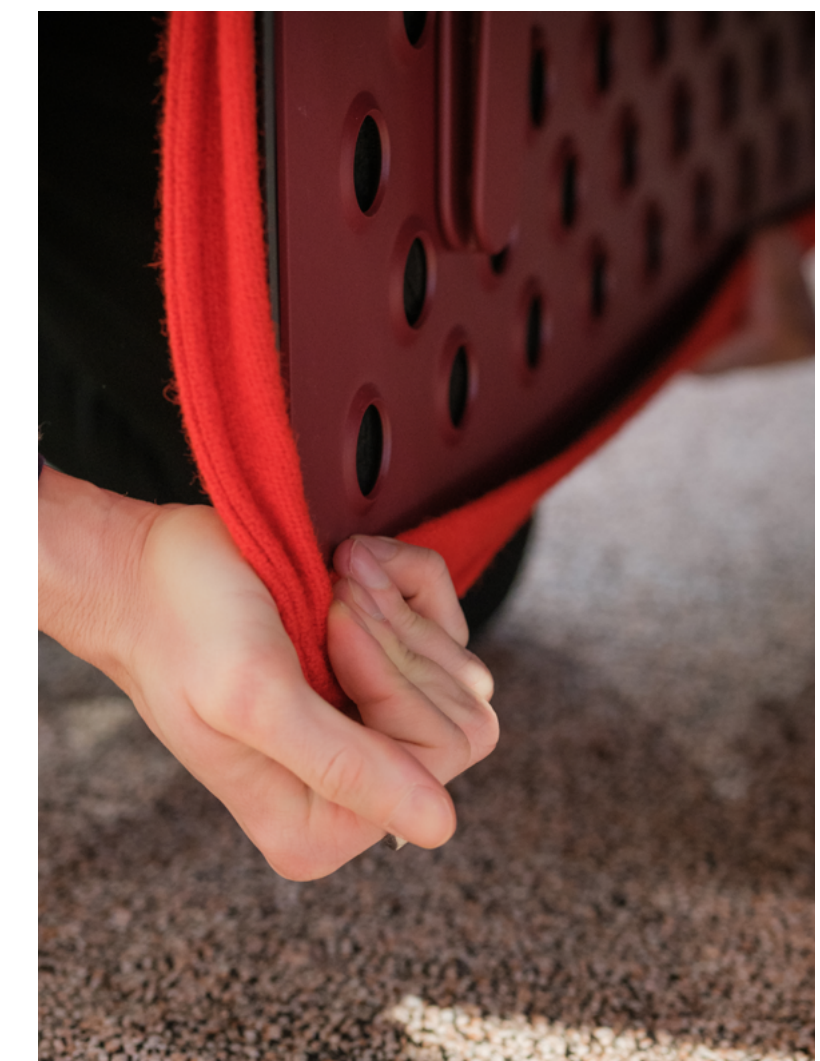

OFFECCT

The unique upholstery design makes it possible to replace the upholstery on site. No glue, no staples, simply order a new upholstery and have it easily refurbished. The Circulus sofa system is built up with few components, easily replaced with spare parts if needed.

This breakthrough approach extends furniture lifespan, allowing spaces to evolve with changing needs while minimizing waste and maximizing value.

EPD  
CERTIFIED

Certified through rigorous third-party EPD assessments, the system demonstrates measurably environmental impact while maintaining superior durability and functionality.

**Complete lifecycle transparency** ensures every material component is documented and traceable. When Circulus eventually reaches end-of-service, its thoughtfully engineered design enables efficient disassembly into constituent materials for optimal recovery and regeneration.

## MANUFACTURED IN EUROPE

European manufacturing for environmental responsibility

Circulus is produced in Poland to reduce transport emissions and ensure responsible sourcing. By embracing regional manufacturing, we:

- lower carbon footprint through proximity to key markets
- support transparent, ethical supply chains
- ensure higher environmental standards and regulations
- promote local economies and craftsmanship

This thoughtful production strategy translates sustainability into real, measurable impact.
