Vertigo tables

Through an elaborate arrangement of mirrors, the coffee table Vertigo creates an illusion of infinite depth contained within architectural refinement. The launch of Vertigo and a new book, marks 25 years of inspired collaboration between Offecct and Claesson Koivisto Rune.

Designers

“Vertigo table illustrates a long lived misconception about us and our work. Those who call us minimalists have not really understood that it is not about minimalism; for us it has always been about adding something.”

– Claesson Koivisto Rune

Vertigo tables Design - Now and then

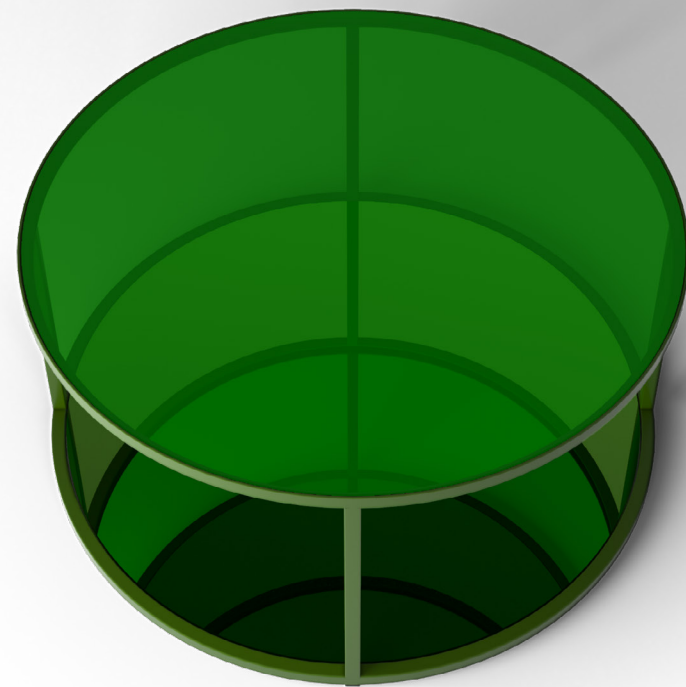

Vertigo is a coffee table developed with Claesson Koivisto Rune that was first launched in 2005. The original design was produced in one size and shape and was awarded 'Best Interior Object' by the Swedish design magazine Forum, at its launch at the Stockholm Furniture Fair.

Redesign

In 2024, Vertigo returns in three, new sizes and shapes with three striking colours.

Dimension, weight & framecolors

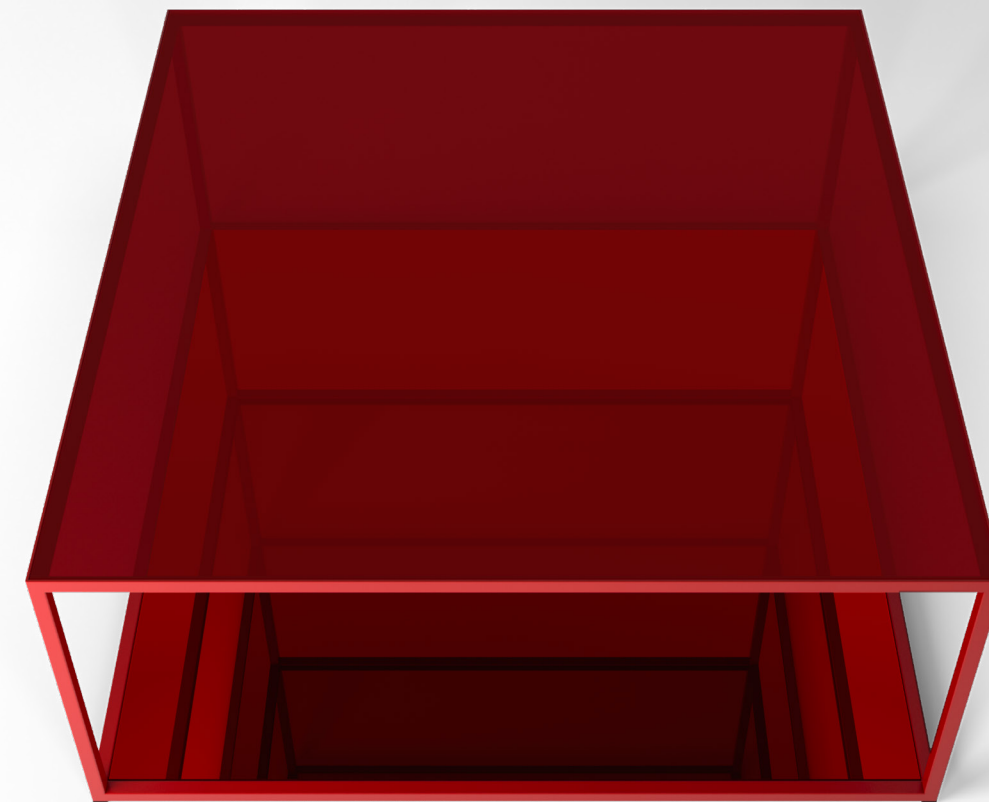

CIRCLE:

ø720×330mm

20,85kg

RAL 6029 (Mint green)

SUPERGLOSS GLOSS SMOTTOH: GLOSS 90

SQUARE:

880×880×380mm

38,75kg

RAL 3004 (Purple red)

SUPERGLOSS GLOSS SMOTTOH : GLOSS 90

RECTANGLE:

980×420×280mm

21,65kg

RAL 3004 (Purple red)

SUPERGLOSS GLOSS SMOTTOH: GLOSS 90

Simultaneous experience

The top shelf is made of two glass tabletops one-way mirror glass while the bottom shelf is a mirror glass. This creates the appearance of a bottomless depth when seen from above, and when placing objects on the bottom shelf, the reflections create an infinite number of framings.

Technical information

Top: laminated spy-mirror with tempered ironless glass

Bottom: laminated mirror with ironless glass

Designers ambition

“We have always, as architects and designers, looked at what we think is best at any given time, and compared ourselves to it no matter what country it is in.”

– Claesson Koivisto Rune

Thank
you!
