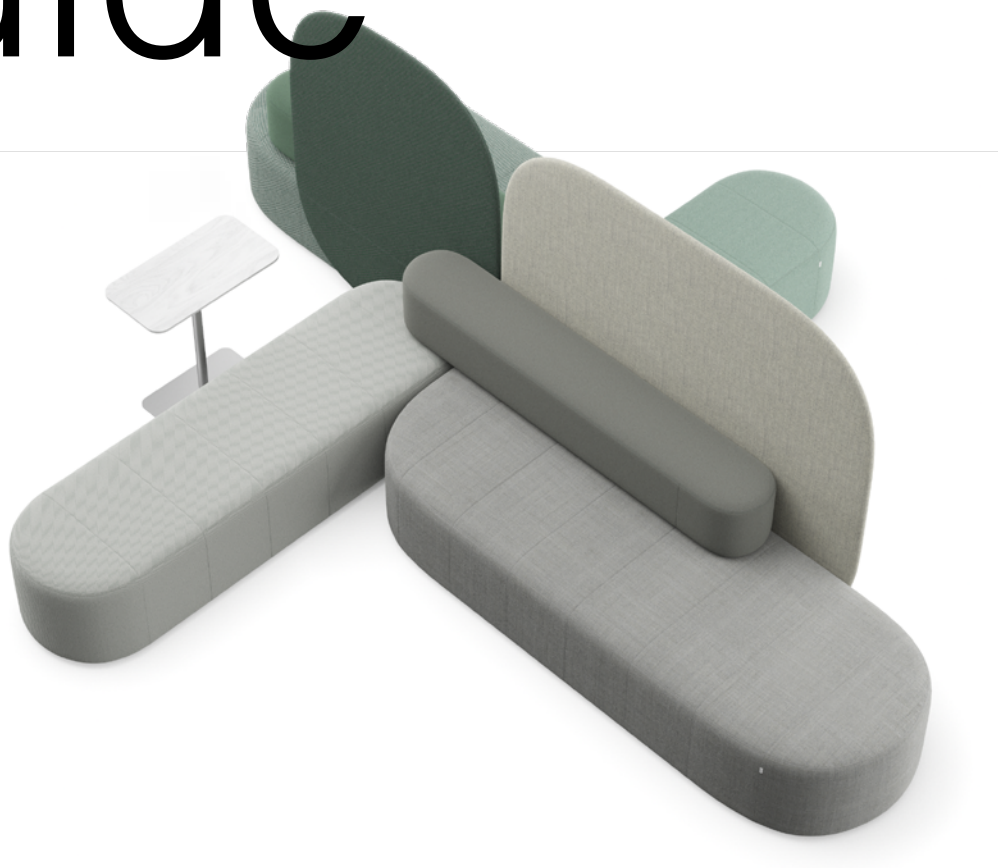
Revo Configuration Guide



Pearson Lloyd

profim

Revo configuration guide.

Revo is designed to bring a consistent design language to every space, whatever its function or size. Create a Your perfect space with a configuration guide.

REVO.
Endlessly configurable, infinitely recyclable.

Designed by Pearson Lloyd, Revo represents a radical rethinking of the way office furniture is made. Responding to the changing way we work and the urgent need for action on climate, our new modular seating collection sets new standards in both sustainability and versatility.

The Revo family includes sofas, tables, screens and pouffes in softly contoured, organic shapes. Each piece in the collection is lightweight and easily manoeuvrable – so when needs change, so does Revo.

Features:

- Circular product – design for easy disassembly. All Revo components can be easily separated into their component materials, and returned to the manufacturing cycle,
- Created from recyclable REPP (recycled expanded polypropylene) instead of wood,
- Manufactured without glue or staples,
- Product weight reduced by 40%,
- Each piece in the collection is lightweight and easily manoeuvrable,
- Every stage of production – manufacture to shipping – is energy- and carbon-conscious,
- The Revo collection range: 2 pouffes, 2 narrow sofas, 3 wide sofas, 3 backrests, 3 screens, 2 laptop tables, 2 coffee tables, 3 conference tables,
- Available in 96 distinct modular configurations.
