

giroflex 313 swivel chair

Designed by Paolo Fancelli
for Flokk brand Giroflex

Learn more about
giroflex 313

The giroflex 313: Designed for mobility, flexibility, and simplicity.

In response to the growing need for adaptable workspaces, the giroflex 313 is stripped down to the essentials—without compromising on comfort or energising ergonomics. Less truly is more.

A chair to share

With height as the only adjustment needed, it delivers a premium seating experience that fits seamlessly into open workspaces, project rooms, and meeting areas.

The giroflex 313 offers a wide range of design combinations, making it the perfect choice for any environment.

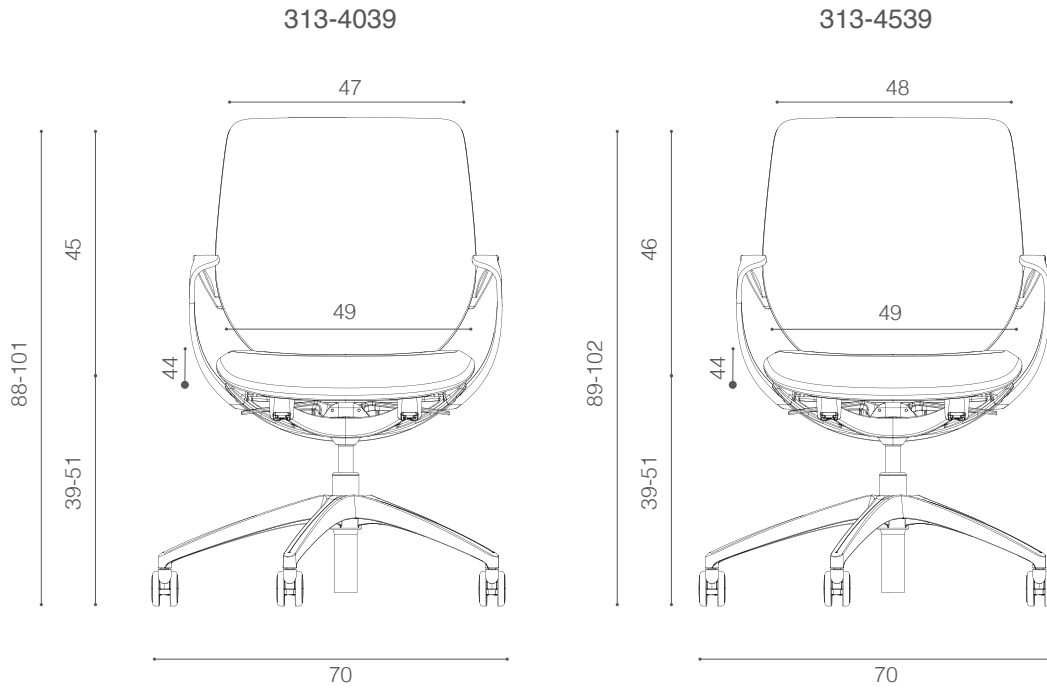

Synchro-motion

This chair series features an automatic self-adjusting synchro motion mechanism, specially developed to ensure optimal support for every user, every time.

Recommended workspace

The giroflex 313 is the chair to share, with height as only adjustment needed, and a perfect design with a broad spectre of combinations to complement different open workspaces, project rooms, and meeting rooms where a premium seating experience is required.

Measurements

Armrest cannot be added or removed in a later stage.

giroflex 313	-4039	-4539
Seat height loaded	39–51cm	39–51cm
Total height	88–101cm	89–102cm
Backrest height above seat	45cm	46cm
Seat width	49cm	49cm
Backrest width	47cm	48cm
Total width (5-arm base)	70cm	70cm
Seat depth	44cm	44cm
Mechanism automatic adaption to the body weight	45-120kg	45-120kg

Models and Measurements (acc. to EN 1335) | Measurements can vary slightly from chair to chair

Technical description

Automatic Synchro motion mechanism	Giroflex in-house development, patented Aluminium diecasting design, powder coated or polished aluminium finish Synchronous movement Automatic weight adaption - 45 - 120kg Linear back contact pressure during the entire mechanical operation Backrest inclination angle = 0-21° Auto synchro-motion, lockable in full upright position Seat /backrest ratio = 1:3 Seat surface inclination angle = -1° to -8°
Base	5-arm aluminium diecast base, powder coated or polished aluminium finish (option)
Castors	Dual wheel castors Ø65mm, load-dependent braking, black, acc. to EN 12527 and EN 12529 for hard or soft floors
Column	Standard component for seat height Type approved acc. to EN16955 Infinitely adjustable range = 12cm Strength class 4
Controls	Option: Extra seat heights: see price-list "special seat heights" The controls are positioned so to be easily accessible, when sitting in the chair. Handle (left) for seat height adjustment Handle (right) for locking backrest tilt in full upright position
Seat shell	Polyamide with 15% glas (PA6 GF15), black 810, structured surface
Seat upholstery plate	Polypropylene (PP)
Mesh back	Pronounced ergonomic design for optimal adaptation and support. The mesh fabric RUNNER from Gabriel guarantees optimal comfort and air circulation
Backrest frame	Polyamide with 15% glas (PA6 GF15), black 810, structured surface
Backrest upholstery plate (upholstered backrest only)	Polypropylene (PP), black 810, structured surface
Shape of seat and backrest 2-zone seat	The front part (approx. 1/3 of the seat surface) has a 7° forward tilt to relieve pressure on thighs. The rear part supports the pelvic area and prevents the occupant from sliding forward. Backrest: Pronounced ergonomic design for optimal adaptation and support of the back
